Visit Johor Logo

The **Visit Johor 2026** logo is a carefully crafted emblem that encapsulates the state's historical, cultural, and economic dimensions in a cohesive and compelling design.

At its core, the logo features the **Bangunan Sultan Ibrahim**, an architectural icon that once dominated the skyline as the tallest building in Malaya before independence. This landmark is more than a nod to history; it represents Johor's enduring legacy of resilience, progress, and innovation, standing as a bridge between its illustrious past and forward-looking future.

Key elements like the **tiger**, Johor's national animal, embody strength and resilience, while also nodding to **Zoo Johor's** role in wildlife conservation. The **pineapple** represents Johor's agricultural success as Malaysia's leading producer, adding an economic dimension to the design.

Together, these symbols create a cohesive narrative of a state that blends tradition with modernity, inviting the world to discover Johor's vibrant essence and future potential.
